"We Live by Principle and Prosper by Revelation"

June 24, 2009

Grace and Peace,

During this season of apostolic revival and reformation as stewards over the mysteries of God, we have been given a mandate to help lead the charge to elucidate the present-day revelation of God's plan in the earth. With this mandate in mind, **Visionary Conference 2010 & Beyond** was conceived. It is imperative that we understand in this present season God's intents for 2010 and beyond in order to be properly positioned and aligned to carry out God's kingdom agenda. The church can no longer be reactive. It must grow to maturation and proactively infiltrate the kingdom of darkness acquiring lands, systems and souls for the kingdom of God.

Coming together to co-host this powerful event will be the *three-generation apostolic trio*, Apostle Leo Stallworth of Harlem, NY, Apostle Lord M. Hunt of Chicago, IL and Apostle Anthony B. Johnson of Kansas City, KS. We are looking forward with great expectancy to experiencing the *voice* and impartation of three generations of Apostles.

This conference has been designed to empower, equip, authorize and mobilize leaders. Mark your calendar and make plans to attend July 19 – August 2, 2009 in the city of Chicago under the Big Top Tent. **Embassy International Fellowship (EIF), including the Midwest and Southern Regions, will be scheduled to be in attendance and to participate the week of July 19-24, 2009 with Bishop Anthony Johnson speaking on Wednesday, Thursday and Friday at 7:00 pm nightly.**

Visionary Conference 2010 & Beyond will provide 21 opportunities to receive apostolic impartations, prophetic insight, kingdom revelation and a transition into another level. Each week day Monday thru Friday will offer two seminar sessions in the morning and a Mid-day Power Hour service. The speakers for these sessions have been selected from the fellowships involved and will feature some of our very own.
